

CHELMSFORD AMATEUR RADIO SOCIETY
NEWSLETTER NO.154.

NOVEMBER, 1978.

Next Meeting.

The November meeting is a talk with slides by Brian Bourn G8JAU entitled 'Steam Engines'.

For over 250 years the steam engine has served mankind in a reliable yet colourful way. For example, the largest railway engines developed over 10,000 h.p. weighed more than 300 tons and travelled at speeds in excess of 100 m.p.h. burning coal at a rate of 5 tons per hour. But behind the scenes there were stationary engines in factories and waterworks where the polished brass and varnished mahogany would have ornamented any Victorian Drawing room.

Brian is well qualified to give the talk having owned a 14 ton steam traction engine for over 20 years. Please come and enjoy what should be a different and pleasant evening but be warned that Brian says that the talk is not suitable for those of a nervous disposition.

The meeting takes place on Tuesday November 7th at Marconi College, Arbour Lane, Chelmsford commencing at 7.30 p.m.

Leicester Coach Trip Sat. November 4th.

There are still several vacant seats on the coach so please try to support the trip - it only needs one financial disaster to stop coach trips for a long time ! The fare will be about £2.50 per head (you can't even get to London for that!). The arrangements have been made to combine the visit to the Exhibition with a shopping spree for those who would like to take advantage of Leicester's excellent shopping centre, wives please note !

The pick-up points for the coach are as follows :-

- 1) Boreham 7.30 a.m.
- 2) County Hotel, Chelmsford 7.50 a.m.
- 3) Writtle Duck Pond 8.00 a.m.

Writtle will be the main pick-up point as there is a free Car Park. There will be no waiting at the other two points. It is essential that you ring John (Danbury 4677) or Les (Chelmsford 66993) if you would like to go.

Don't forget that the more people that travel, the bigger the coach, the smoother the ride.
